CREATE A FORM

AIM : To create a form for taking the user inputs like medicine name, time, and date. Store all the details in the database.

STEP 1: connections of NODE-RED

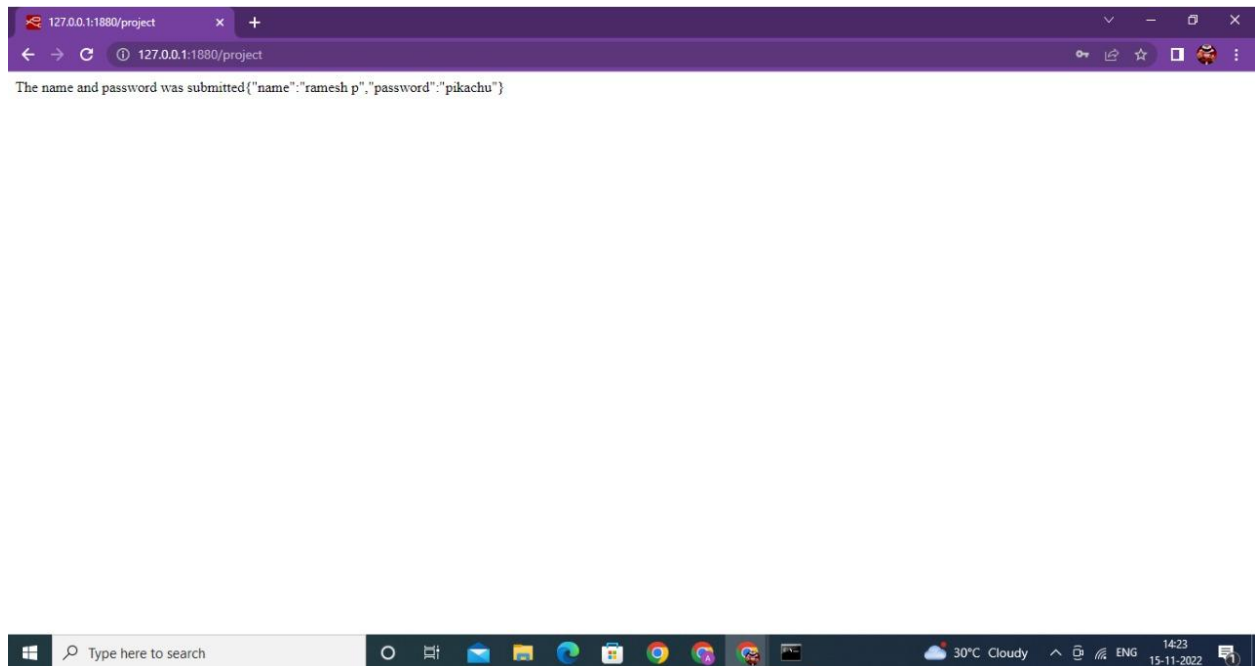

STEP 2: creating the form and entering login in credentials

The screenshot shows a web browser displaying a login form titled "form". The form contains the following fields and buttons:

- name:** A text input field with the value "ramesh p".
- password:** A password input field with masked characters "*****".
- submit** and **reset** buttons.

The browser's address bar shows the URL "127.0.0.1:1880/form". The Windows taskbar at the bottom indicates the system time is 14:22 on 15-11-2022.

STEP 3: Created the form successfully.

RESULT :

Successfully created a form for taking the user inputs like medicine name, time, and date. Store all the details in the database.
